WHICH INVICTUS® LUXURY VINYL FLOOR SHOULD I CHOOSE?

Invictus® luxury vinyl flooring has many options to choose from, in four ranges: Invictus® Maximus Dryback, Maximus Click, Primus Dryback and Primus Click. The best choice for your home? It all depends on both your design dreams and installing preferences.

PRODUCT COMPOSITION Rigid core SPC vinyl flooring

INVICTUS® CLICK IS A RIGID CLICK LUXURY VINYL FLOORING

Invictus® Maximus Click and Primus Click are luxury vinyl flooring to be installed using the click system. The outstanding rigid material of Invictus® Click is a far cry from seemingly similar but lesser quality products, and therefore guarantees an unseen level of dimensional stability.

The advantages of Invictus® Click luxury vinyl flooring:

- ✓ Thanks to its high locking strength and dimensional stability, it is a favourite with professional installers and DIY enthusiasts alike. The click system makes the rigid wood design planks and stone look tiles easy to install – and to remove, should you wish to reuse your floor elsewhere. Installation does not require the use of specialized tools: a utility knife is all you need.
- ✓ With Invictus® Click planks or tiles, little or no subfloor preparation is needed. The rigid material is very forgiving and will hide tile joints and most imperfections such as cracks and high and low spots. The result is a perfectly smooth surface.
- ✓ Invictus® Maximus Click has an attached underlay, that enhances the acoustic benefits of your floor. On top of that, the underlay helps even out subfloor imperfections.
- ✓ Invictus® believes in sustainability: Invictus® Click planks and tiles contain more than 20% of recycled production waste, reducing the need for raw materials

Invictus® luxury vinyl flooring has many options to choose from, in four ranges: Invictus® Maximus Dryback, Maximus Click, Primus Dryback and Primus Click. The best choice for your home? It all depends on both your design dreams and installing preferences.

PRODUCT COMPOSITION Dryback vinyl flooring

INVICTUS® MAXIMUS DRYBACK AND PRIMUS DRYBACK

Invictus® Dryback luxury vinyl flooring comes in two ranges:

- 1 **Invictus® Maximus Dryback** consists of luxury vinyl planks and tiles with a wear layer of 0.55mm. They offer excellent wear resistance and durability, which makes them suited even for heavy commercial use such as care, hospitality, office and retail.
- 2 **Invictus® Primus Dryback** stands for luxury vinyl planks and tiles with a wear layer of 0.30mm. They offer excellent value for money and are designed to effortlessly withstand the challenges of daily family life.

The advantages of Invictus® Dryback luxury vinyl flooring:

- ✓ It is the professional installer's premium choice. Whether consisting of wood design planks or stone look tiles, Dryback flooring will offer a superb performance for many years to come. The floor is glued directly to the subfloor, resulting in exceptional dimensional stability.
- ✓ No decorating wish remains unfulfilled: create original patterns or add embellishments like feature strips for a tone-on-tone or contrasting grout effect. The result is a stunning floor in either wood or stone design, that will have you look twice.
- ✓ Dryback flooring is the ideal solution for installing on top of an existing floor. Installation of the planks and tiles on a leveled floor is easy, dust free and does not require the use of specialized tools: a utility knife is all you need. And no need to adapt the doors: because of its limited thickness, your new floor will easily fit underneath.

INSTALLING YOUR INVICTUS® LUXURY VINYL FLOOR

No hassle, no waiting time ... Installing Invictus® luxury vinyl flooring is quick and easy, and dust free on top of that. The best guarantee for an impeccable Invictus® floor is to have it installed by a professional. Your preferred retailer will be glad to advise you and will make sure that the appropriate installing conditions are met. If you wish to rely on your own DIY skills, choose Invictus® Click.

Before installing Invictus® luxury vinyl flooring:

- ✓ With Invictus® Dryback, it is crucial to check the condition of the subfloor. Cracks should be filled, and bumps sanded. Another option is to install a plywood underfloor to obtain a perfectly even surface. When installing Invictus® Click, you may skip the preparation of the subfloor. The rigid click planks or tiles will hide tile joints and most imperfections.
- ✓ For commercial use, you may enhance the inherent acoustic benefits of your Invictus® Maximus floor with an extra underlay. No need for an underlay with Invictus® Maximus Click: it already has an underlay attached to the planks and tiles.
- ✓ Allow 24 hours for the Invictus® planks or tiles to acclimate before installation. Stack the packs horizontally on top of each other in the room the floor will be installed in.
- ✓ When installing Invictus® flooring on underfloor heating, please refer to the technical information sheet for detailed instructions.

Installing Invictus® luxury vinyl flooring:

- ✓ Mixing planks or tiles from different packs is your best guarantee for a harmonious look in design and colour on the entire floor.
- ✓ Invictus® Primus Dryback and Maximus Dryback are to be glued down. Your retailer will select the best fitted glue for your floor.
- ✓ Invictus® Primus Click and Maximus Click planks and tiles are rigid and have an integrated click system, for easy installing without the use of any adhesives. Because it is a floating floor, you should allow an expansion gap of 8mm near all walls.

INVICTUS® STARTER PACK

Keep your Invictus® luxury vinyl floor in mint condition

All you need to keep your Invictus® luxury vinyl floor in mint condition for years to come, is one small box: **The Invictus® Starter Pack.**

Right after installing

You may want to unpack the Starter Pack right away and take out the Invictus® PU cleaner to eliminate all traces of the installing. We advise you to also use Invictus® Floor Mat to apply an extra matt anti-slip protective finish.

Regular cleaning

The Invictus® Starter Pack is ideal for regular cleaning. When mopping the floor – remember, it is waterproof –, make sure to dilute some Invictus® PU Cleaner in the water. It will remove all traces of regular family life, like dirt and shoe marks, without leaving any residue. To quickly refresh your floor, use diluted Invictus® Floor Mat.

Tips & tricks

With Scratchmaster®, there's little risk of scratching your Invictus® floor. Still, you can further minimize the risk: fit your furniture and chairs with the gliders available in the Starter Pack, and lift instead of dragging when moving furniture. To avoid staining – even if unlikely – it's a good idea to wipe away spills as soon as they happen.
